WORK EXPERIENCE

Full-stack Developer
Enreach Labs. Málaga
Apr.2024 - Jun.2024

My main responsibility at Enreach Labs was the creation of a virtual library for the company together with a team. This project allowed me to deepen in different technologies, architectures and design patterns, which are shown below:

Frontend: **Vue.js, Typescript**, **Vitest**, **Vite**. **Hexagonal architecture** and **DDD** (Domain Driven Design) were used.

Backend: **Symfony**, **API-Platform**, **Codeception**. **CQRS** (Command Query Responsibility Segregation) design pattern and Hexagonal Architecture were used.

QA: End to End with **Cypress** and **Cucumber**.

- Work methodologies: **Scrum**, **Kanban** and **Jira**.
